

FACT SHEET

U.S. AFRICA COMMAND COMBINED JOINT TASK FORCE–HORN OF AFRICA

Mission

Combined Joint Task Force – Horn of Africa conducts operations in the combined joint operations area to enhance partner nation capacity, promote regional security and stability, dissuade conflict, and protect U.S. and coalition interests.

Vision

CJTF-HOA builds and strengthens partnerships to contribute to security and stability in East Africa. The task force's efforts, as part of a comprehensive whole-of-government approach, are aimed at increasing our African partner nations' capacity to maintain a stable environment, with an effective government that provides a degree of economic and social advancement to its citizens. An Africa that is stable, participates in free and fair markets, and contributes to global economic development is good for the United States as well as the rest of the world. Long-term stability is a vital interest of all nations.

Means

Through an indirect approach that focuses on populations, security capacity and basic human needs to counter violent extremism, CJTF-HOA operations build and call upon enduring regional partnerships to prevent conflict. The task force conducts civil-military operations, military-to-military engagements and key leader engagements; provides enabling support; and uses outreach communications to support and enable security and stability.

Background

CJTF-HOA was established at Camp Lejeune, N.C., Oct. 19, 2002. In November 2002, service members embarked on a 28-day training cruise aboard USS Mount Whitney, and arrived in the Horn of Africa Dec. 8, 2002. CJTF-HOA operated from the Mount Whitney until May 13, 2003, when the mission transitioned ashore to Camp Lemonnier in Djibouti, Djibouti. Since then, CJTF-HOA personnel have used civil military operations as the cornerstone to countering violent extremism and building partner nation and regional security capacity. Working closely with U.S. government agencies, particularly the U.S. State Department and U.S. Agency for International Development, CJTF-HOA has supported development by building and renovating numerous schools, clinics and hospitals, conducting Medical Civil Action and Veterinary Civil Action projects, and supporting water resource development and waste management.

Service members from each branch of the U.S. military, civilian employees and representatives of coalition and partner countries serve on behalf of CJTF-HOA. The task force, along with coalition and other U.S. defense components, provide support to regional organizations to help foster cooperation, enhance collective peace keeping, improve humanitarian assistance and support civil-military operations. The CJTF-HOA area of operations includes the countries of Kenya, Tanzania, Somalia, Ethiopia, Eritrea, Uganda, Rwanda, Burundi, Djibouti, and Seychelles. The CJTF-HOA area of interest includes Yemen, Mauritius, Madagascar, Mozambique, Comoros, Chad, Egypt, Sudan, South Sudan, Central African Republic, and the Democratic Republic of the Congo.
